

CRITERION 7

7.1.3.

**Describe the facilities in the Institution
for the management of the following
types of degradable and non-degradable
waste**

Jagdamba Education Society's
S.N.D. College of Pharmacy
Babhulgaon, Taluka-Yeola, Dist-Nashik-423401 (M.S.)

Dust bin with Colour code and E-Waste Store.

Management of solid waste

1. Solid waste produced on SND College of Pharmacy property is collected in distinct, color-coded trash cans. Garbage made of paper and plastic is gathered in vessels of blue color. Containers painted green are used to collect plant-based, biodegradable waste. Glass and other pointy objects are gathered in sturdy containers.
2. Gram Panchayat receives the solid trash for later disposal.

Waste management for liquids

1. Lab and restroom liquid waste is discharged into separate drainage systems connected to separate septic tanks.
2. Biomedical waste from pharmacology laboratory and microbial waste from microbiology laboratory is incinerated.
3. The soil contains dangerous compounds that are buried deep. The college does not produce radioactive waste.

Handling of e-waste

- The laboratory personnel collects batteries and other electrical and electronic debris, as well as PCBs. The garbage is then divided into recyclable and non-recyclable materials. The Junk is kept at a remote location till it is sent to Sony PC accessories system, Nashik for recycling.
